

THE CHARLEROI MAIL

VOLUME XX—NO 88

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, WEDNESDAY, SEPT. 17, 1919

TWO CENTS

CIVIC LEAGUE NOMINATES TWO CANDIDATES FOR COUNCIL

Newton and Repman Lead Ticket, with Duvall A Strong Third

COREY WINNER OVER STABLEIN

A small revolution took place in Charleroi politics on Tuesday, when the civic league, recently organized, nominated two of their candidates for borough council and made a hard fight to nominate the third.

According to the returns which appear in another column Duvall, Newton and Repman will appear on the Republican ticket as candidates for council to be voted for at the coming November election. H. L. Swickey, now president of council, and who was a candidate for re-election, was bitterly opposed and was compelled to see himself go down to defeat in the battle which was hard-fought all day Tuesday. The vote for Duvall was somewhat surprising, as he ran very heavy in all of the precincts. Newton and Repman, however, leading him in the order named. Mitchell, fourth man on the ticket, made a splendid run, with Swickey and Zwick following Stevenson and Smith being the low men on the ticket.

In justice to Mr. Stevenson however it is only fair to state that he had withdrawn his name, and had posted notices at all of the polling places asking voters not to vote for him. Otherwise his vote would have been much larger.

In the contest for Constable Corey defeated Stablein, the present incumbent, in a most decisive manner. Corey carried every precinct but one, the fourth, where he and Acker tied for the lead. It was not expected that this contest would be so one-sided, but the voters had evidently made up their minds for a change and expressed themselves in no uncertain manner.

The contests for council and constable caused the greatest interest in local offices, but the county vote was not overlooked. The handsome testimonial handed to Alex. Gray, who led Miller so overwhelmingly was a source of much gratification to his many friends in this community. Baum was a decisive winner over Cummins, while Castner maintained a commanding lead over Lutton for county treasurer.

The vote for county commissioner was also closely scanned, and John O. Watson was given a vote of confidence by his fellow citizens. Walker appeared to be strong as a second choice, with Johnston and Louttit running well, Wray and Robison not commanding a great deal of strength. Baker carried the borough for Clerk of Courts and Col. Aiken for Register of Wills.

Charleroi gave her preference for Orphans' Court Judge to Baker, with Hughes a strong second, although the other candidates polled very good votes. As to the other candidates, their standing is shown in the vote

RETURNED SOLDIER BRINGS WIFE AND BABE

John McGinty, a well known young man who lives out Maple creek and who has been in service for some time on the Mexican border with the American army, arrived home early this morning, accompanied by his wife and babe. Mr. McGinty's friends had not been advised of his marriage and the appearance of the soldier and his family was a surprise to his many friends.

See the brooms in our window, sale price only 39c. On sale Thursday at 2 p. m. Berryman's. 88-11

PEGG BROTHERS HELD FOR COURT

Harry and Oliver Pegg formerly of Charleroi, arrested in Mt. Pleasant, Ohio, for auto thefts, were given a hearing before Magistrate Sweeney of Pittsburgh on Tuesday who held them for court in the sum of \$4,000 each for their appearance in criminal court of Allegheny county. From the testimonial presented Harry Pegg appeared to be the leader of the bandits which had made such a record in stealing autos. He admitted that he had been a resident of the Quaker community of Mt. Pleasant for a period of about three years and had a family. That he had used the money obtained from selling stolen automobiles to keep his family. He had been employed as a mail carrier in Mt. Pleasant. Oliver Pegg was not examined. Some half dozen Quakers who had purchased cars from the Pegg brothers were present at the hearing and were inquiring if there was any way in which they would be able to recover their money. The magistrate told them their only remedy was to institute proceedings against the Pegg brothers for restitution, and then proceeded to give them a lecture, telling them they should have known they were purchasing "crooked" cars. The Peggs will likely come up for trial in the criminal courts of Allegheny county at the next term.

Evans Big Fall opening and closing out sale. Beginning Saturday September 20. Sale to last until everything is sold out. Closing out of business. 88-14

Special sale of brooms only 39c. See them in our window. On sale Thursday at 2 p. m. at Berryman's. 88-11

which will be found in another column.

The election was one of the largest and most exciting held in Charleroi in years, showing that voters were deeply interested in the political fortunes of some favored candidate. The vote published in the Mail is practically official and will be changed but little if any from the official count which will be made at Washington.

IT LOOKS LIKE ALEX. GRAY FOR SHERIFF OF THE COUNTY

MOTHERS' BOARD FACED BY LACK OF FUNDS

The Board of Trustees of the Mothers' Assistance Fund of Washington county met at Monongahela on Tuesday. At the present time the board can give assistance to only 49 mothers with their 177 children because the legislature did not make a large appropriation to furnish grants to all mothers who have applied. There are 90 applicants on the waiting list, with about 400 children. The board is more than sorry that these with all others, will have to wait until more money is granted for the work.

RATE CHANGES ON WESTSIDE RY. CO.

The Westside Electric Railway company has filed a new tariff of rates and rules governing the transportation of passengers and freight between Charleroi and Ellsworth, as well as between Charleroi and Monessen and Belle Vernon. The new tariff becomes effective on October 15, 1919, and makes the following changes in existing rates: The fare from Charleroi to Ellsworth will be 25 cents instead of 24 cents, and the distance has been divided into five zones. These zones are as follows: First, at Warner; second at Nelson; third at Jones School; fourth at State Road and Fifth at Ellsworth. The fare in each zone will be five cents. The former rate was 24 cents. The 6 cent fare has been abolished. Between Charleroi and Monessen the following rates will prevail: To the bridge, 5 cents; from the bridge to Monessen 7 cents, or a total of 12 cents. Monessen to Arnold City 15 cents; first zone at the bridge; second at Fayette street, North Belle Vernon, and the third at Arnold City, three five cent zones. From Charleroi to Belle Vernon and Arnold City the fare will be 17 cents. From Charleroi to bridge, 5 cents; from the bridge to Fayette street, North Belle Vernon, 7 cents; to end of the line 5 cents.

BIG VOTE FOR WATSON IN DONORA

The vote given by Donora to John Watson for Commissioner was certainly very complimentary. He received 766 votes in that borough, which with 634 in Charleroi made a total of 1400 even in the two towns. Had other communities in the county come anywhere near these two districts the nomination of Mr. Watson would have been more than assured.

Evans Big Fall opening and closing out sale. Beginning Saturday September 20. Sale to last until everything is sold out. Closing out of business. 88-14

Born—To Mr. and Mrs. Elmer Keifer a son.

Leading Miller by Almost 500 with 42 Precincts To Hear From

CUMMINS WILL WIN OVER BAUM

Returns received from 110 precincts out of 152 in the county indicate that the Republican county ticket will be as follows:—

Commissioners—Johnson and Walker.
District Attorney—Cummins.
Sheriff—Gray.
Treasurer—Lutton.
Clerk of Courts—McGregor.
Register of Wills—Aiken.
Coroner—Greenlee.
Prothonotary—Pollock.
Poor Directors—Hawkins and Lane.

The vote for various candidates from these districts was as follows: Commissioner—Johnson 5908; Louttit 3507; Robison 1752; Walker 5291; Watson 3674; Wray 1445.

District Attorney—Baum 5654; Cummins 6071.
Sheriff—Gray 6249; Miller 5799.
Treasurer—5005; Lutton 6724.
Clerk of Courts—Baker 2575; Clark 3674; McGregor 5237.

Register of Wills—Aiken 6026; Hugus 1652; Parshall 1685; Tombaugh 2408.
Coroner—Greenlee 7558; Heffran 3598.

Prothonotary, no opposition.
Director of Poor—Adams 2763; Bagshaw 1849; Browneller 2732; Ellwood 1412; Hawkins 4161; Lane 3031; West 1571; Wolfe 2401.

Returns from the remaining 42 districts are not likely to change any of these probabilities, as it will be noticed that the candidates in the lead have substantial pluralities and majorities in their favor.

For Judge of the Orphans' Court the possible nominees will be Hughes and Clark, with a fighting chance for Baker to pull ahead of Clark. There was no opposition to Judge Brownson for Judge of Common Pleas, neither was there any opposition to Judge Keller for Judge of the Superior Court.

The vote was one of the largest, if not the largest, ever cast in a primary election in Washington county.

Mrs. Mary Burbanick.
Mrs. Mary Burbanick died at her home, Tenth and Shady, Tuesday morning at 2:30 o'clock. Funeral services Thursday afternoon at 2 o'clock, from the Russian Orthodox church, with interment in Charleroi cemetery. This is the fourth death in this family since last October, the father and two children having been previously taken. Two children remain of the family, a daughter aged 16 years and a son aged eight years.

CRITICISE FEATURE OF NEW BALLOT LAW

One of the features of the present election, not relished by the judges, is the fact that all of the ballot boxes had to be taken to Washington. The primary election law compels the judge of election, who is to be accompanied by the minority inspector, to take the ballot box to Washington and deliver it to the county commissioners. No returns are to be computed until this duty is completed. The law provides no compensation for this new feature, and judges were compelled to make their own arrangements to get the boxes to the county seat. Much criticism was expressed over this feature, and unless it is modified in some way, and compensation allowed, it will be a difficult matter to secure people to serve as judges of election.

Special sale of brooms only 39c. See them in our window. On sale Thursday at 2 p. m. at Berryman's. 88-41

GRAY CARRIES MONONGAHELA

The vote in Monongahela for candidates on the Republican ticket was as follows:

Commissioners—Johnston 287; Louttit 757; Robison 256; Walker 207; Watson 259; Wray 227.
Sheriff—Gray 630; Miller 466.
District Attorney—Baum 589; Cummins 470.
Treasurer—Castner 508; Lutton 571.
Register—Aiken 451; Huges 280; Parshall 214; Tombaugh 119.
Coroner—Greenlee 670; Heffran 368.
Orphans' Court Judge—Clark 268; Baker 214; Linn 207; Hughes 529.

WANT REPORTS FOR TOMORROW

Now that election is all over, the Elk's Teams will start in today to clean up the canvass. From the reports of the solicitors who were working Monday, prospects are very bright for a most successful campaign. The Campaign Headquarters will be kept open tonight until ten o'clock or later if necessary, and all team captains are particularly requested to make their reports tomorrow at the latest.

REPUBLICAN NOMINATE YOUNG FOR MAYOR

At the primaries held in Monongahela on Tuesday Charles Young, a former well-known justice of the peace of Carroll township, and who has lived in that town for one year, was nominated by the Republicans for Mayor. The term is four years.

See the brooms in our window, sale price only 39c. On sale Thursday at 2 p. m. Berryman's. 88-41

Berryman's special sale of brooms only 39c. Starts Thursday at 2 p. m. 88-41

Miss Ellen Clark left Tuesday morning for Beaver Falls, where she will attend Geneva College. 87-42

LEAVE ON HUNTING TRIP TO CANADA

Charles S. VanVoorhis, a company man, W. M. Rogers, of the White Motor Company of Pittsburgh, will leave on Saturday for an extensive hunting trip in Northern Canada. They will go from Pittsburgh to Cochrane, Ontario, and from there to Amos, a point much farther distant to the north. At the latter place they will fit out for an extended stay in the woods, and where they will be provided with guides, provisions and equipment for the trip. Leaving their trunks at the latter place, and carrying only those things essential for hunting big game, and accompanied by two guides, they will start on two-day motor boat trip up Lake Siskumika. On the way to their camp they will have to make a number of portages, but after a trip of one week's duration they expect to arrive at their destination, where they will spend a month in hunting moose, caribou and bear. Mr. VanVoorhis expects to return home some time the latter part of October.

THE ONLY REMEDY THAT HELPED HER

Plant Juice, the new herbal stomach remedy, stands the highest of any preparation now on the market, because its wonderful curative powers have been proved in thousands of cases where other remedies have failed to give relief, according to the signed testimonials of well known local people who have been benefited thereby.

Miss Jean Hutton.

Recently the signed statement was received from Miss Jean Hutton, a popular Pittsburgh young lady, who resides at No. 7331 Finance street who said:

"For many months I had been troubled with rheumatism and nothing gave me any benefit. My feet and limbs were terribly swollen and gave me great pain and I could hardly walk from my chair to the table for my meals. I was in a very badly run-down condition. A friend told me of Plant Juice and begged me to try it. I did so, and got so much benefit from the first few doses that I continued to take it, and now can truthfully say that I never felt better; the swelling is gone from my limbs and feet; I am able to do my housework and am glad to recommend Plant Juice to any one suffering with rheumatism."

Plant Juice is sold in Charleroi at Henning's Drug Store.

CLYDE WICKERHAM'S SISTER DIED IN NEBRASKA

Word was received in Monongahela on Monday of the death of Mrs. Ray Reasoner at her home in South Bend, Nebraska. Mrs. Reasoner was formerly Miss Olive Wickerham, a daughter of Mr. and Mrs. John D. Wickerham of Carroll township, and a sister of Clyde Wickerham of Charleroi. The deceased was a former school teacher, and taught in the public schools of Monongahela and Donora. The remains are on the way east and funeral services will be held from the home of her father in Carroll at a time to be announced later.

Notice is hereby given that Louis Brown has purchased the business stock, fixtures and good will of the American Dry Cleaning Company owned by Harry Schaffler. Creditors should apply to Louis Brown, Fifth street and Fallowfield on or before the 15th day of September. Louis Brown. 88-41

EAGLE PENCIL COMPANY, NEW YORK

Mabel McKinley—Niece of the Late President of the United States—Takes Nuxated Iron for Health and Strength And Says She Regards It as The Ideal Tonic For All Weak, Run-Down Nervous Women

Dr. George H. Baker, Formerly Physician and Surgeon Monmouth Memorial Hospital of New Jersey, Explains Why Iron Is One of the GREATEST OF ALL STRENGTH BUILDERS

Says: He has found nothing in his experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron.

Every woman who wishes to possess health, strength and beauty, should carefully read the statement of Miss McKinley who, after her personal use of Nuxated Iron tells of the results she obtained.

Miss McKinley says: "While I had often heard of Nuxated Iron, I must admit that prior to using it myself I had no idea of its remarkable value for building up the health and strength."

"Following the strain imposed by months of the most exacting work singing for the soldiers in the various army encampments, together with my social engagements and charitable pursuits, I found myself in such a weakened, run-down state that I feared a complete collapse."

"It seemed utterly impossible for me to drop everything and go away for a complete rest, but I realized that as my condition was serious I must either do this or find something that would actually rebuild my waning strength and enable me to continue my activities."

"I had always been prejudiced against tonic preparations which, for the most part, I found only acted as a temporary stimulant and usually left one worse off than ever. However, when my own family physician, insistently recommended that I give a fair trial to Nuxated Iron, I consented to begin its use, with a result that after a few days the weakness and exhaustion from which I suffered began to be replaced by a feeling of renewed strength and vitality. In less than three weeks' time my whole system was tingling with energy and power and I was overjoyed to find that I was once more in superb physical condition."

"Nuxated Iron has accomplished so much for me that I regard it as the ideal tonic for all weak, run-down women. As a strength health and blood-builder, I am convinced Nuxated Iron has no equal."

In commenting on Miss McKinley's statement, regarding the efficacy of Nuxated Iron, Dr. Ferdinand King, New York

Miss McKinley has a voice of unusual quality and it was following her work singing for the soldiers that she became weakened and run-down and had recourse to Nuxated Iron. Once more in superb physical condition, Miss McKinley says she is convinced that Nuxated Iron has no equal as a Strength, Health and Blood-Builder.

Physician and Medical Author, says: "It is my opinion that in practically nine times out of ten, unstrung nerves and failing strength and vitality are due to deficiency of iron in the blood. Many a woman who is run-down, nervous and who quickly tires out, suffers from iron deficiency and does not know it. I am convinced that there are thousands of such women who, simply by taking Nuxated Iron, might readily build up their red-blood corpuscles, increase their physical energy and get themselves back to vibrant and vigorous health. By enriching the blood and increasing its oxygen carrying power, Nuxated Iron will often transform the flabby flesh, toneless tissues, and pallid cheeks of nervous, run-down women into a glow of health, and make them look younger within a surprisingly short time."

Among other physicians asked for an

opinion was Dr. George H. Baker, formerly Physician and Surgeon Monmouth Memorial Hospital, New Jersey, who says: "What women need to put roses in their cheeks and the springtime of life into their step is not cosmetics or stimulating drugs but plenty of rich, pure blood. Without it no woman can do credit to herself or to her work. Iron is one of the greatest of all strength and blood-builders, and I have found nothing in my experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron."

Manufacturers' Note: Nuxated Iron which is recommended by physicians is not a secret remedy but one which is well known to druggists. Unlike the old-fashioned iron products, it is easily assimilated, does not injure the stomach, make them black, nor upset the stomach. The manufacturers guarantee complete and satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

Is being rapidly subscribed for. Terms Cash or Half Cash balance 30 to 90 days.

Business Men of Monessen endorse it. They are Purchasing Large Blocks of Stock.

As the quota for this locality is only 7,000 Shares, the Company has decided that in order to give the people of Charleroi equal opportunity with those of Monessen, to open a local office here.

Call at No. 520 Fallowfield Avenue, Charleroi, Pa.

and see our display of Casket Models. Get full information. Booklets describing investment will be mailed upon request. Telephone orders for stock reservations will be given prompt attention.

Some time during the next next Few Days a Large Commercial Size Glass Casket will be on exhibition.
This Is Your Opportunity to Get Your Money Working for Big Profits.

How Much Money

Can You Make?

Is it a money maker? The company, as stated, holds the patent rights for New York, Pennsylvania, New Jersey, Rhode Island, Vermont, Maine, Connecticut, New Hampshire, Delaware and Maryland. In this district approximately 500,000 deaths occur annually. Let us assume that we can sell only 5 per cent of this casket trade—and that is a very conservative estimate. That would mean 25,000 caskets sold per year.

Let us assume, too, that we make a net profit of no more than \$10 on a casket. This would mean profits of \$250,000 on the 25,000 caskets. In turn, this would show a net profit of 25 per cent on the total authorized capitalization.

FACTORY NEARING COMPLETION

Company is now building on seven acres of ground in Altoona and to date has its factory nearing completion. Production is anticipated before end of year.

Who Are the Men in Charge?

Men in charge of the business of The Glass Casket Corporation require little introduction to the public. They have built up for themselves reputations for ability and integrity that cannot be challenged. Here they are:

A Marketable Product

The Glass Casket Corporation will manufacture new glass burial caskets, made possible by a series of patents recently issued.

It will also manufacture the heavier articles of glass which other plants are not equipped to turn out in quantity.

The glass burial casket is at once a necessity and a new invention. It fills a need that has endured since mankind put aside savagery.

The glass burial casket is the ONLY casket that will not yield to the forces of nature and crumble away in time.

The glass casket will sell in competition with the better grades of wooden caskets.

The glass casket will undersell all metallic caskets and will far outlast them.

The glass casket can be finished in any style desired and has a beauty and dignity that cannot be duplicated.

Read This Clipping From The Altoona Times

Under date of September 12, 1919

and be convinced that the Glass Casket Corporation investment is the surest, safest and sanest investment, with assurance of Big Profits ever offered to the People of this City.

GLASS CASKET CORPORATION PLANT NEARS COMPLETION; WILL BE IMPORTANT INDUSTRY

Several members of the Times Staff spent an interesting and instructive afternoon yesterday at the new plant of the Glass Casket Corporation, at South Altoona, while enthusiastic members of the new concern explained the working of the giant furnace and other features connected with the making of the new product. Not being quite ready to die, as yet, we would hardly venture the remark that it would be a genuine pleasure to be buried in a glass casket, but a visit to the plant, where everything was explained by courteous and enthusiastic planners of the new industry, surely well worth while.

Construction work is going along at a very rapid rate, and all contracts for the necessary material to be used

in completing the plant, have already been let. Considerable difficulty has been experienced in getting the needed supplies, but if transportation troubles do not interfere, it is expected that the plant will be in operation and turning out the finished caskets before Christmas.

NEARING COMPLETION

The buildings are rapidly nearing completion and are up to date examples of the very best type of modern construction. All brick work is being laid in concrete instead of the usual lime and sand mortar, for this style of construction, while a great deal more costly, is by far the most permanent and substantial. The window sash and frames being installed are of the very latest, all steel design, put up for lasting durability.

The completed plant will consist of the big, spacious furnace room, the lehr, or annealing room, trimming department, mixing room, gas producing plant and numerous warehouses for the storing of raw material and finished products. Railroad spurs are being constructed, which will enable the freight cars to unload directly at the plant, and provision is being made whereby the finished caskets may be loaded and shipped with the greatest

and most efficient conservation of time and labor.

BIG MIXING ROOMS

The big mixing room, more than 100 feet long, will contain the enormous bins where the sand, lime and other ingredients that go into the making of glass will be stored. Here also will be located the mixing machinery which prepares the "batch," as the glass workers term the mixture. When thoroughly prepared and mixed, the "batch" will be conveyed by the endless belt to the furnace room, where is located the largest type of flint glass furnace it was found practicable to build.

The furnace, and the system of air and gas generators, by which it will be heated, are imbedded in a foundation of solid concrete. By an ingenious system of conduits, coal gas and air, heated to an enormous temperature, are conducted by separate channels to the top of the furnace, directly over the container of the "batch," to melt thus forming the molten glass.

The burning gas is reversed every twenty minutes, being fed from chambers on opposite sides of the furnace alternately. This system insures the

proper maximum temperature at all times. Tremendous heat is necessary to convert the sand, lime and soda ash into glass, and the furnace at the Altoona plant will develop a temperature of from 2,500 to 2,700 degrees. The floor on the fire chamber is built of flux blocks, a clay composition that is the only known material able to withstand the enormous heat, and the action of the molten glass. The top or "cap" of the furnace will be built of silica brick, which is considered the most impervious to enormous temperatures.

The gas with which the furnace will be fed is to be generated in a gas producing plant just to the rear of the furnace room whence it will be conveyed by conduits to the furnace itself. An enormous stack 125 feet high and imbedded in a solid concrete foundation, will carry off the residue from the gas combustion in the furnace.

TIME TO MOULD CASKET.

Directly in front of the furnace will be the casket moulding machinery which will compress the molten glass into the proper shape and size. It is estimated that it will take thirty seconds to cast one casket. Ten seconds will be allowed for filling the mould, ten for the pressing process, at least 500 people will be employed.

from ten more to deliver the casket to the lehr.

The lehr room is the next department through which the caskets must find their way before completion. This room will contain two enormous melting capacity of 24 tons daily. The big generators are built on solid concrete foundations which extend to a depth of twelve feet below the ground floor surface.

Al Bowman, our genial guide on the tour of inspection, has spent his entire lifetime at the glass business, and gave a most interesting explanation of the process. Mr. Bowman will be general superintendent of the big plant when it is completed.

S. W. Manning is looking after the business end of the corporation, and everyone is looking forward to the day when the fires can be lighted for the first time with as much eagerness as the young folks anticipating Christmas time.

Branching out in a new field, the Glass Casket Corporation will be an imposing and important addition to the industries of Altoona, for its products are destined to become known everywhere. An inspection of the enormous buildings and a talk with the men behind the company, is more than sufficient guarantee of the success of the enterprise.

The plant will be in continuous operation for twenty-four hours every day, as the furnace cannot be allowed to cool. The big furnace has a melting capacity of 24 tons daily. The big generators are built on solid concrete foundations which extend to a depth of twelve feet below the ground floor surface.

Al Bowman, our genial guide on the tour of inspection, has spent his entire lifetime at the glass business, and gave a most interesting explanation of the process. Mr. Bowman will be general superintendent of the big plant when it is completed.

S. W. Manning is looking after the business end of the corporation, and everyone is looking forward to the day when the fires can be lighted for the first time with as much eagerness as the young folks anticipating Christmas time.

Branching out in a new field, the Glass Casket Corporation will be an imposing and important addition to the industries of Altoona, for its products are destined to become known everywhere.
